

Lesson 9 - Perimeter and area

Mild

1) Find the perimeter AND area of each rectangle

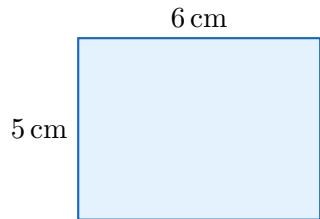

a)

Perimeter = _____ cm

Area = _____ cm²

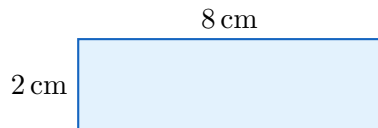

b)

Perimeter = _____ cm

Area = _____ cm²

c)

Perimeter = _____ cm

Area = _____ cm²

2) Complete the table

Length	Width	Perimeter	Area
5 cm	3 cm		
	4 cm	24 cm	
7 cm			35 cm ²
9 cm	6 cm		

Lesson 9 - Perimeter and area

Spicy

1) Find the missing side length

a) Perimeter = 28 cm, one side = 9 cm. Other side = ?

b) Area = 54 cm², one side = 6 cm. Other side = ?

c) Perimeter = 46 cm, one side = 13 cm. Other side = ?

d) Area = 84 cm², one side = 7 cm. Other side = ?

2) Word problems

a) A football pitch is 105 m long and 68 m wide. Find its perimeter and area.

b) A square room has an area of 81 m². What is its perimeter?

Lesson 9 - Perimeter and area

Hot

1) Same area, different perimeter

List every rectangle with whole-number sides whose area is 36 cm². Which has the smallest perimeter?

2) Design challenge

Zubair is designing a rectangular classroom. The perimeter must be exactly 40 m. He wants the largest possible area. What dimensions should he choose? Explain.

Reasoning

True or false?

“Two rectangles with the same perimeter must also have the same area.”

Give an example to support your answer.
